End of February seems reasonable for an initial review/assessment, though I expect there will be more work to be done. I'd recommend briefing Ed end Feb/early March, with the goal of having a draft response to petitioner for internal review. Briefing should focus on assessment of petitions claims, recommendations & rationale/uncertainties.

Karen and I have an initial call with Dave Emme tomorrow. Eric/Nick have talked, but I don't know if they've started talking to ODA. We'll need to set up a discussion w/ODEQ and decide who will do that.

There is a DW enforcement meeting tomorrow at 1pm and I can check in with Eric and Adam to confirm roles.

Thanks,

Peter

I plan to touch base with Mat on this charter this morning. My question for you is time availability for you, Adam and Eric to participate in the initial phase of data review and interaction with the state agencies. I'm also curious to hear your thoughts about a reasonable timeframe to take this on given everything else.

Jeff KenKnight

Subject: RE: Draft Charter - Lower Umatilla Basin

Hi Mat

Thank you for drafting this! Nice work....

A few thoughts – I think Tony B should be part of the ET sponsors (I am fine with being the Liaison in my role as Ag Exec ... and I know he has many other commitments right now), but recommend he be in loop

I added a few more questions to be answered – and re-ordered the questions. It probably does not matter the order of the questions, but I think first and foremost we should assess the quality of data and look at how it compares with OR DOH data...

All comments/thoughts are just that, and feel free to disregard if it is adding too much to this first phase, or call if you want to discuss

Also, with respect to sharepoint, I was able to edit but not to upload back to that sharepoint site I so re-saved and am sending back to you as an attachment.

Thanks!

Lucy, Jeff, Peter, and Cara,

Linked is my One Drive folder for the Lower Umatilla Basin. Please comment. Happy to engage in conversation on this soon.
